

Let's Talk About Race: A Conversation with Julius Lester

Race is a complex and often difficult topic to discuss. But it's a conversation that we need to have. In his new book, *Let's Talk About Race*, Julius Lester explores the many facets of race relations in America. Through a series of candid conversations with family, friends, and colleagues, Lester challenges readers to confront their own biases and assumptions about race.

Lester begins the book by sharing his own experiences with racism. He recalls being called names, being discriminated against, and even being threatened with violence. These experiences led him to question the very nature of race. What is race? Is it real? Or is it just a social construct?
