## Synopsis

The Downfall of Money is a groundbreaking book that exposes the truth about the global financial system and its impending collapse. This book is essential reading for anyone who wants to understand the economic crisis that is gripping the world today.

In The Downfall of Money, David Graeber and Michael Hudson argue that the global financial system is a Ponzi scheme that is doomed to collapse. They explain how the system is based on the creation of debt and the extraction of interest from borrowers. This system cannot continue indefinitely, and when it finally collapses, the consequences will be devastating.

## Author Biographies

**David Graeber** was an anthropologist and author. He is best known for his work on debt, value, and the history of money. Graeber died in 2020 at the age of 59.

**Michael Hudson** is an economist and author. He is a professor of economics at the University of Missouri-Kansas City. Hudson is a leading

critic of the global financial system and has written extensively about the need for a new economic paradigm.

## Reviews

“The Downfall of Money is a brilliant and devastating critique of the global financial system. Graeber and Hudson show how the system is based on a Ponzi scheme that is doomed to collapse. This book is essential reading for anyone who wants to understand the economic crisis that is gripping the world today.” —**Yanis Varoufakis, former finance minister of Greece**

“The Downfall of Money is a must-read for anyone who wants to understand the global financial crisis. Graeber and Hudson provide a clear and concise explanation of the problems with the system and offer some important solutions.” —**Noam Chomsky, linguist and political activist**
