

# The Trial of Henry Kissinger: Uncovering the Crimes of a War Criminal

Henry Kissinger is one of the most powerful and controversial figures of the 20th century. He served as National Security Advisor and Secretary of State under Presidents Nixon and Ford, and he played a key role in shaping American foreign policy during the Cold War.

Kissinger has been accused of war crimes, including his involvement in the secret bombing of Cambodia, the overthrow of the Allende government in Chile, and the invasion of East Timor. He has also been criticized for his support of authoritarian regimes around the world, including the Shah of Iran and the military junta in Argentina.

In his book "The Trial of Henry Kissinger," Christopher Hitchens argues that Kissinger is a war criminal who should be held accountable for his actions. Hitchens presents a damning case against Kissinger, documenting his involvement in some of the most horrific atrocities of the Cold War.

Hitchens' book is a must-read for anyone who wants to understand the dark side of American foreign policy. It is a searing indictment of a man who has escaped justice for far too long.

## **Kissinger's Crimes**

The evidence against Kissinger is overwhelming. He was deeply involved in the secret bombing of Cambodia, which killed hundreds of thousands of civilians. He also played a key role in the overthrow of the Allende government in Chile, which led to the deaths of thousands of people. And he supported the invasion of East Timor, which resulted in the deaths of over 100,000 people.

Kissinger has never been charged with any crimes, but his actions have been condemned by human rights groups around the world. In 2001, a group of survivors of the Cambodian bombing filed a lawsuit against Kissinger in the United States, but the case was dismissed on technical grounds.

Despite the lack of criminal charges, Kissinger's legacy is one of shame and disgrace. He is a war criminal who has escaped justice for far too long.

## **The Trial of Henry Kissinger**

In his book, Hitchens argues that Kissinger should be put on trial for his crimes. He believes that Kissinger is guilty of war crimes, crimes against humanity, and genocide.

Hitchens' book is a powerful indictment of Kissinger, and it makes a strong case for putting him on trial. However, it is important to note that Kissinger

has never been convicted of any crimes, and he is unlikely to face trial in the United States.

Nevertheless, Hitchens' book is a valuable contribution to the debate about Kissinger's legacy. It is a reminder of the horrors that Kissinger has inflicted on the world, and it is a call for justice.
