Paul Conroy was a war photographer who spent over a year as a hostage in Syria. His captors were a group of Islamic extremists who subjected him to physical and psychological torture. Conroy's story is a harrowing account of the horrors of war and the human cost of conflict.

Conroy was captured in 2012 while covering the Syrian civil war. He was traveling with a group of journalists when their convoy was attacked by rebels. Conroy and his colleagues were taken captive and held for over a year.

During his captivity, Conroy was subjected to a variety of tortures, including beatings, sleep deprivation, and waterboarding. He was also forced to watch the executions of other hostages.

Despite the horrors he endured, Conroy never gave up hope. He kept a journal of his experiences, which he later used to write his book, *War Photographer*. Conroy's book is a powerful indictment of war and a moving testament to the human spirit.

War Photographer is a must-read for anyone interested in the realities of war and the human cost of conflict. Conroy's story is a harrowing reminder of the horrors that war can inflict, but it is also a story of hope and survival.
