The Great Depression was the worst economic downturn in American history. It began in 1929 with the stock market crash and continued until the late 1930s. During this time, unemployment reached 25%, and millions of Americans lost their homes and savings. The Depression had a profound impact on American society, leading to widespread poverty, hunger, and homelessness.

In his book *World Undone*, Adam Tooze tells the epic story of the Great Depression. He draws on extensive research and vivid firsthand accounts to create a comprehensive and deeply human account of this devastating event. Tooze examines the Depression's origins in the unchecked excesses of the 1920s, its devastating impact on individuals and families, and the desperate measures taken by governments and businesses to mitigate its effects.

World Undone is a masterpiece of historical writing that brings to life one of the most challenging periods in American history. It is a must-read for anyone who wants to understand the Great Depression and its lasting impact on the United States.
